CC: Susan (#1)Burton

i have already gone through the preamble of this agreement this morning and propose the following changes so as to ensure accuracy.

Marigny oil and gas is the offerer to KLMKH.

Apple investments was a broker between DVE and Marigny. They are getting something from MPL that I do not have care or concern what it is.

DVE as of this morning owns 50% of Marigny oil and gas and holds 18,000 acres and 10 operating wells in the Uintah Basin in Utah. The deere family trust is named something else and cannot and will not be a part of any representation that I sign. The only entity that anything to do with anything out there in Kansas (assuming klmkh accepts) is Marigny Oil and Gas, a recently formed Wyoming LLC. I will stipulate that if the successful purchase of the KLMKH assets, the MOG will out of it it agreement bring in additional shareholders to MOG like Anthony melikhov etc, who will be a party to this attestation as well. Meaning that if successful MOG will have more shareholders who will protect ccc interests because they are already a part of it as well.

We could no more "help" Ford Graham and or John Beckstedt than Anthony or any other assumed shareholder of MOG than we would be working against our own shareholder agreement already signed etc.

My wife and I and DVE are having Jay wright our atty deal with the other legal parts of the agreement and will communicate later today.

so as far as the preamble goes, DVE does not own any of MPL. never has and I do not know the ownership structure of their stuff. dont honestly care. DVE owns 50% of MOG and MOG will be owned greater than 50% by the successful purchase of the KLMKH assets. I cannot make a representation about a party I do not control, I can only say that one of the assets if acquired will be used to help them in way shape or form. We will write up the rest today and submit to yall. But i am genuinely concerned about the CCC project and it success.

thanks
